

# Our Structure

As the "voice of the many" with 1,100 members across 90 countries, the decision-making process of the Loss & Damage Youth Coalition seeks to reflect the global diversity of youth. The LDYC is a membership-driven organisation, working to empower youth as it delivers its mission for climate justice.

## Working Groups (WGs)

The LDYC is made up of five working groups, each focusing on one of the following topics:

- Advocacy
- Communications
- Research
- Storytelling
- Training

Working Groups are each led by one or two coordinators, and each function similarly though with some minor variations. WGs generally meet once every two weeks during a membership call hosted by a coordinator. Meetings assess past project progress, outline the work for the week(s) ahead, and allocated tasks to members.
